TALLINN UNIVERSITY

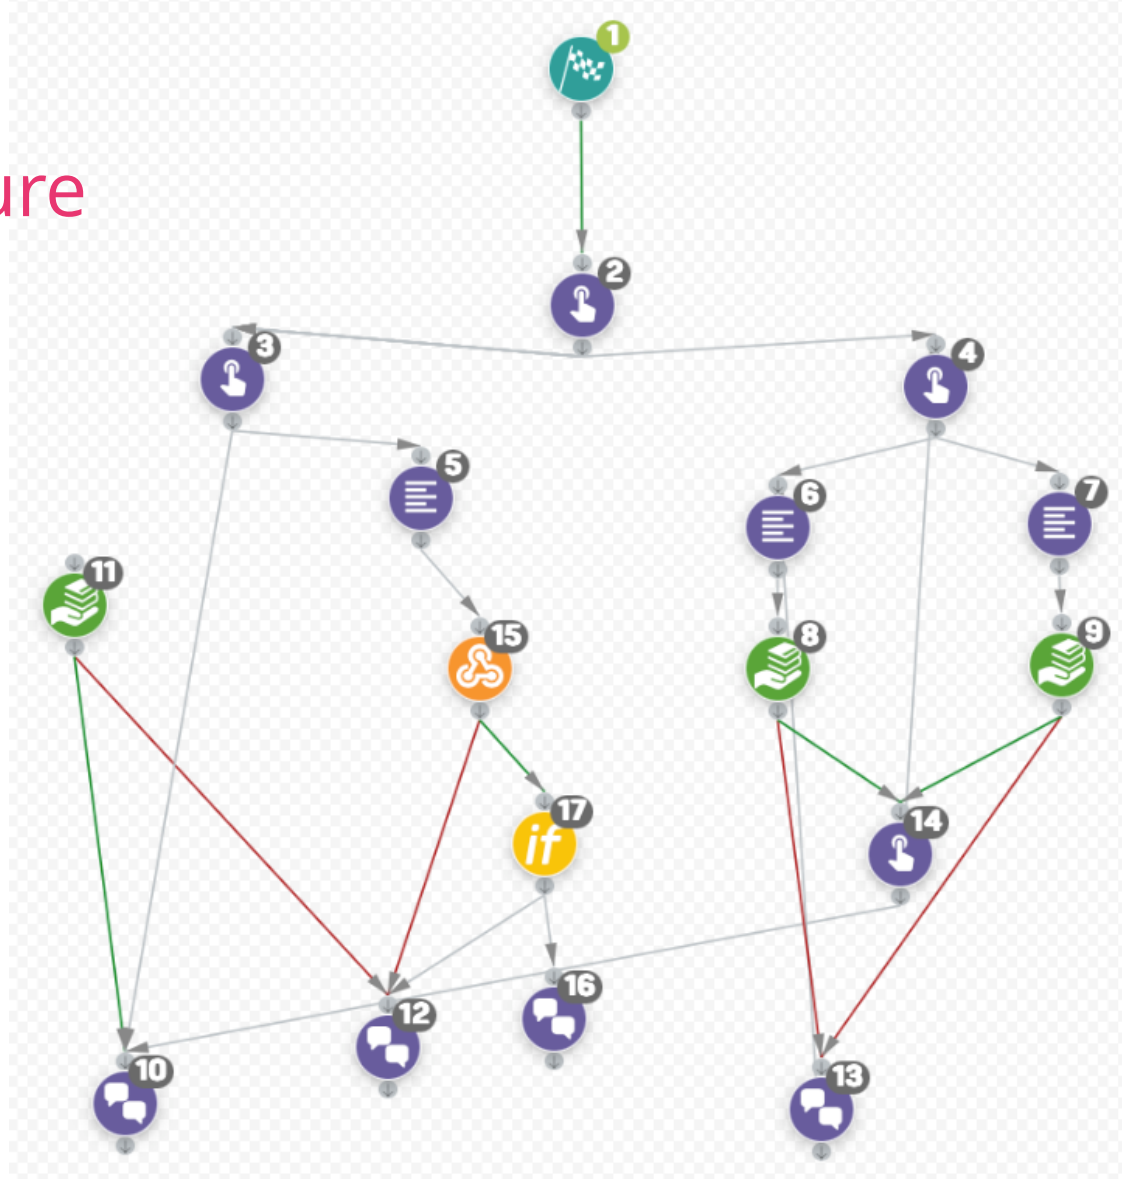

1. Initial situation / background

- Students of the study program: craft management
- Module: Company Foundation
 - Topic of the module: market research
 - Main topic of the pilot event: „Porters 5 Forces“ and „SWOT-Analysis“
- Five students in classroom, two online
 - Need for time and place flexibility
 - Different prior knowledge

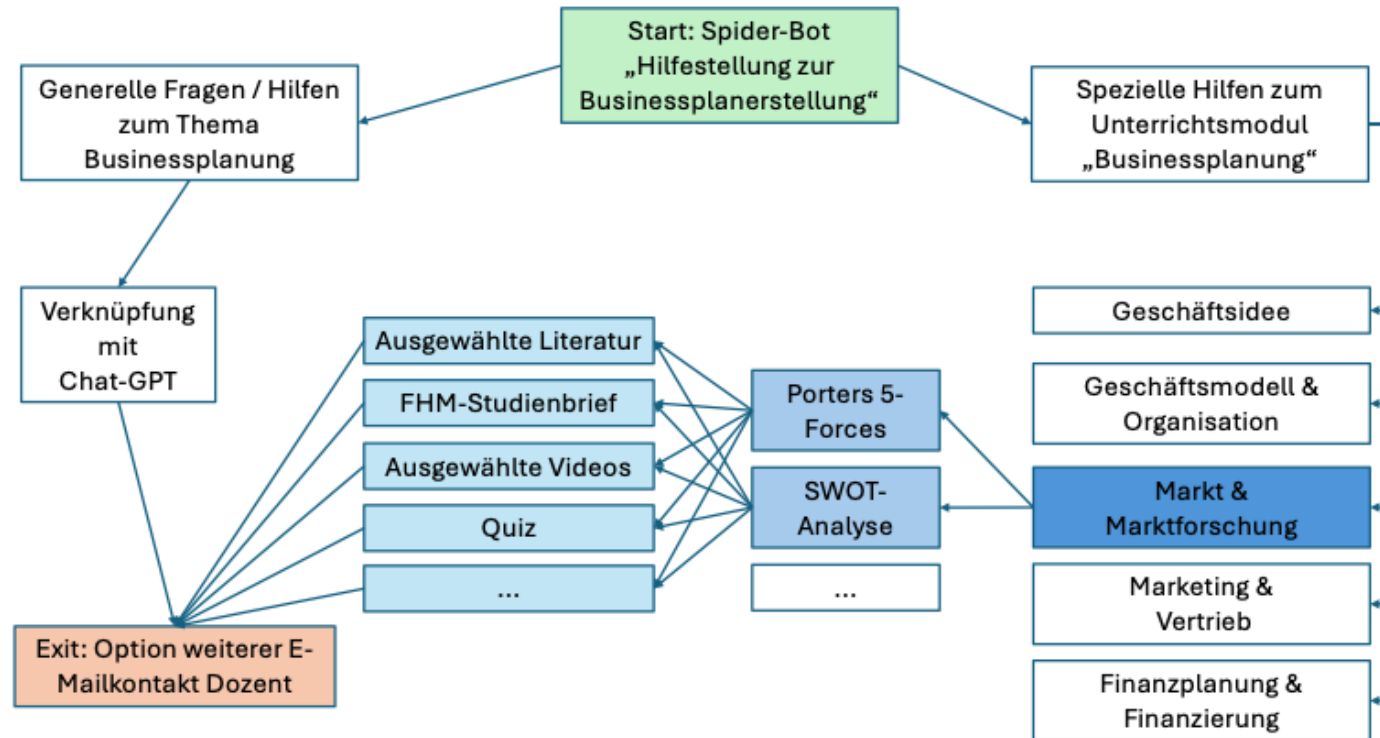

Co-funded by the
Erasmus+ Programme
of the European Union

2. Concept & structure

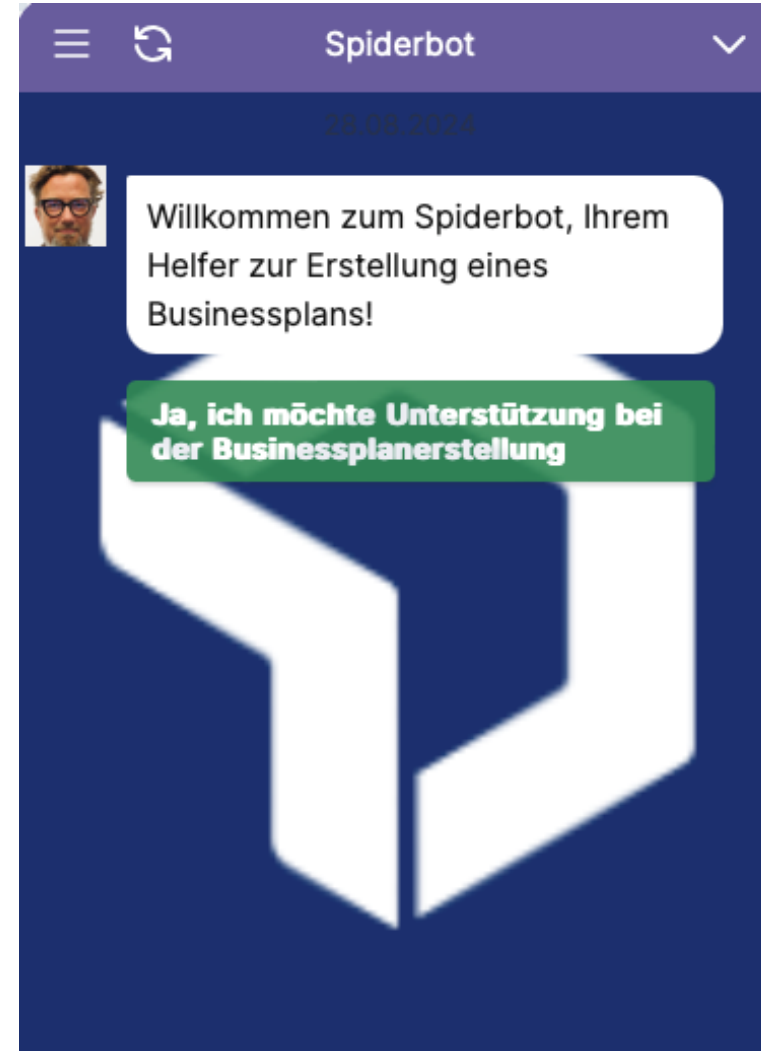

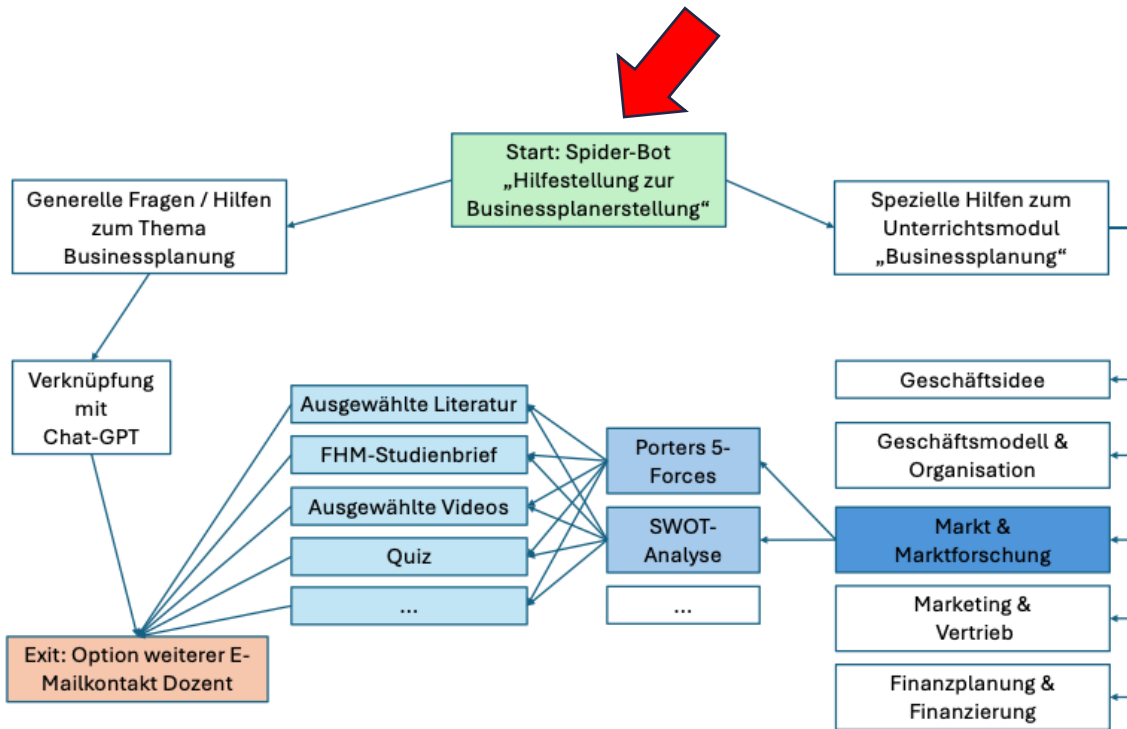

2. Concept & structure

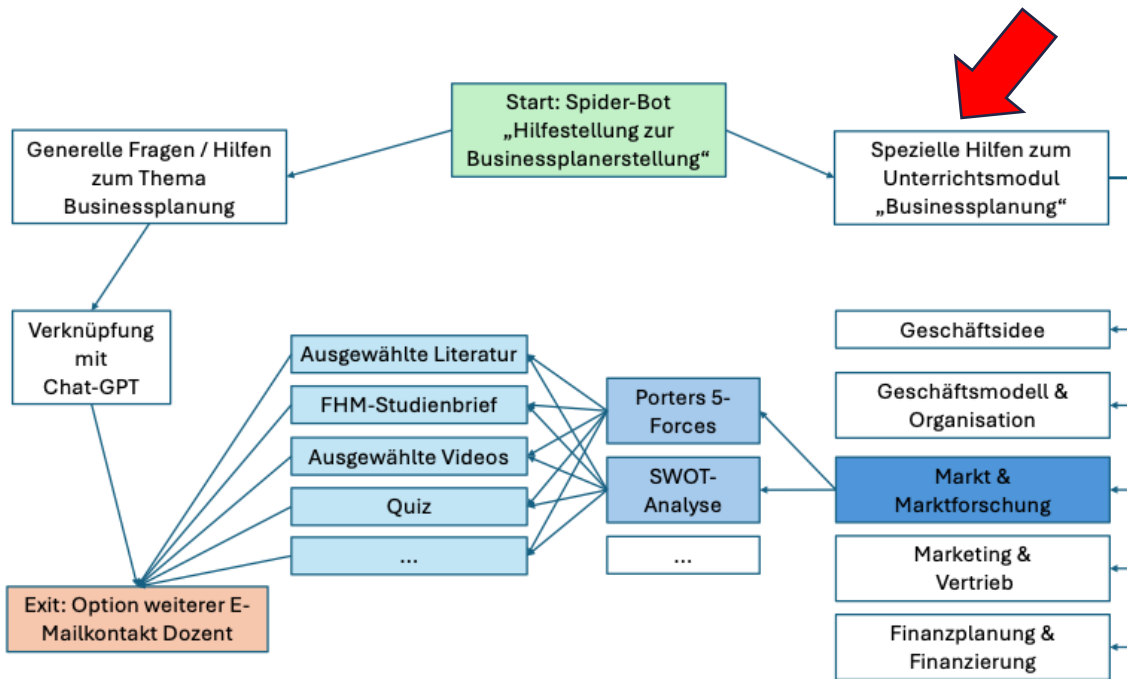

2. Concept & structure

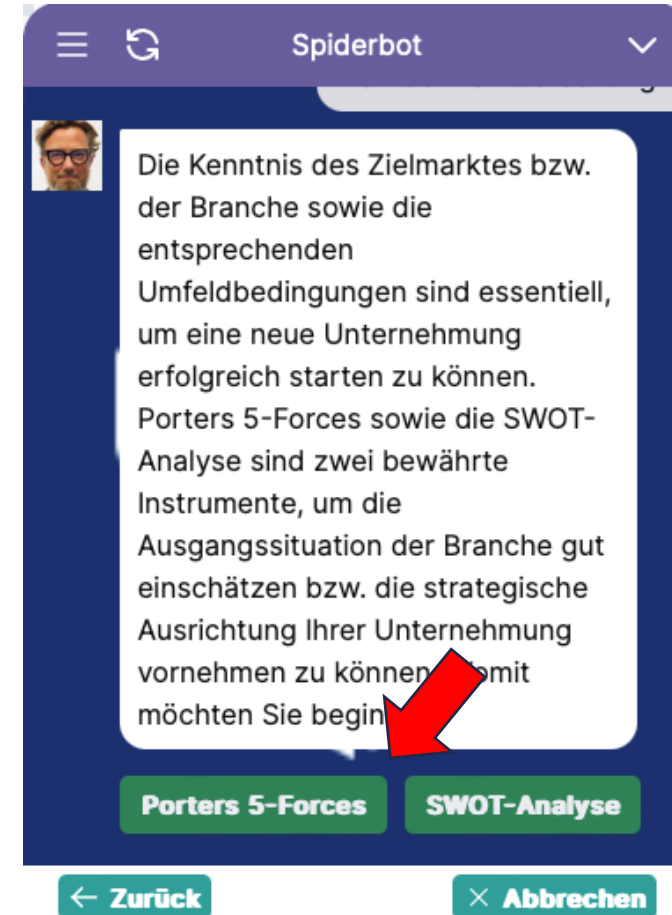

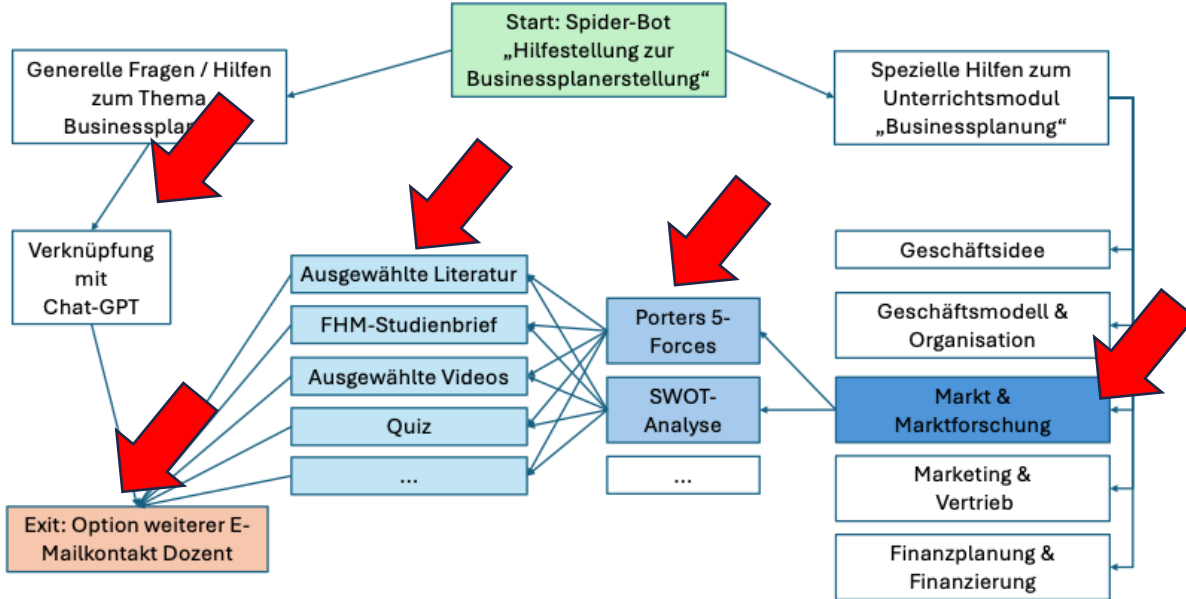

2. Concept & structure

2. Concept & structure

3. Implementation of the pilot event

1. Background of teaching situation & presentation of the Spider-Bot concept
2. Explanation topic of market research in context of business planning
3. Using the Chatbot (knowledge hub: teaching materials)
4. Specific application of the instruments with the help of chatbot (knowledge hub: chat GPT)
5. Presentation and discussion of results – chatbot as stimulus for discussions

4. Conclusions / lessons learned

- Exciting and positive experiment for students & me
- Chatbot optimization is needed (technical and content)
- Strengths: Innovative teaching and learning approach, time and place independent learning atmosphere, helpful ideas and discussion stimulus through the chatbot
- Weaknesses: high initial time expenditure and constant optimization necessary to improve the accuracy of the answers

Last but not least....
