**Meeting ID: 284 794 4673**

**Passcode: 1111**

**Conference languages:** Ukrainian, English.

**We invite you to participate in the international dissemination conference held within the implementation of the project and aimed at supporting the sustainability of the Erasmus+ project:**

**KA2 UNICOM “Universities – Communities: Strengthening Cooperation”**

**101083077 – UNICOM — ERASMUS-EDU-2022-CBHE.**

The purpose of this event is to form:

- a deep knowledge base on EU policies on climate change prevention, adaptation, and mitigation (which can be used in everyday life as well as at various stages of professional activity and decision-making);
- European-level environmental values, competences, and behaviour.

As a result of the event implementation:

- an analysis of European experience regarding the “Green Mission” of universities and community sustainable development will be conducted;
- the knowledge of the target audience about the system of European climate policy and education will be expanded, which will contribute to the dissemination of ecocentric knowledge among various population groups; implementation of the Farm to Fork approach and ensuring the right to adequate food;
- students, academic staff, and community representatives will become active participants in studying and discussing international policy in this field, which will contribute to the formation of professional culture and the promotion of EU countries’ experience in developing and implementing environmental security;
- participants will have a unique opportunity to continuously develop comprehensive knowledge on the green recovery of Ukraine and to become familiar with the role of shelterbelts in achieving the objectives of the European Green Deal: climate adaptation, biodiversity, and sustainable agricultural landscape.
